Sub: Request to trace out the origin of un-solicited negative mails received now and then about school under fictitious and pseudonymous e-mail IDs.

Respected sir,

This is to bring to your kind notice and request you to help us in finding out the source of nasty and hoax e-mails periodically received by the school. These mails are sent by creating cooked up false e-mail IDs. This tentamounts to mis-use and abuse of technology. The negative e-mails present concocted and fabricated stories to malign the school authorities. Such mails are circulated to deviate the academic pursuits of school. This is abuse of e-mail and amounts to cyber crime. It is done by a single individual or a small group of individuals. As these mails impinge human dignity and human values and aim at character assassination, disturb the ethos of educational institutions, we request you investigate through your cyber crime branch to trace the origin of such mails and punish such sick minded persons.

In the past the school ignored such nasty mails, now our authorities including the officers from the Embassy of India have advised me to seek your help in tracing the person and curb such a menace. Details of such mails received are attached herewith for your kind perusal and investigation.

Thanking you, sir.

Yours sincerely

SYED HAMEED 12.2.10
